p4net synchronous client

Caller

gRPC transport

Receiver

Mark closed; enqueue sentinel

cancel stream

close channel

Release teardown lock

join receiver (timeout = 2 s)

The bound limits the caller's join wait.

P4-Utils synchronous client

Caller

gRPC transport

Receiver

Enqueue end-of-stream marker

join receiver (no timeout)

Wait for receiver join

After join returns

close channel

Connected-stream case. Vertical placement denotes source order.
